

Computer Science @ RIT

Research & Careers for Computing Undergraduates

Event Information

February 07, 2020
10:00 AM – 12:00 PM

GCCIS 1400 (Auditorium)

Organized by:
Computer Science Department

Event Information

Come out to our first annual **Research and Careers** meeting, which will provide an overview of the skills and job opportunities that research experience provides for CS BSc students, along with information on where and how a BSc student can **obtain research experience** while at RIT.

The event will include a panel with **RIT Alumni** and **GCCIS Faculty!**

While the discussion will be focused upon research opportunities and jobs for Computer Science students in particular, **all GCCIS undergraduates are warmly invited to join us** and learn more about computing research, and the career benefits that research training provides.

Snacks will be provided!
